# **Near Miss Incident Program**

**Location:** TriOak Foods – All Locations

#### **Purpose:**

Near Miss Incidents are unplanned events that could result in future injury or damage to equipment/property. Your involvement in the Near Miss Program is critical to making work processes safer and correcting unsafe procedures / work habits.

#### **Responsibilities:**

Each department manager / supervisor is responsible for the implementation of this Near Miss Program within their location / department / employees. The manager / supervisor will review and evaluate Near Miss Forms submitted by their employees to determine if proposed solutions are approved or if the solutions will not be implemented.

Every employee is responsible to complete Near Miss Forms to help identify unsafe conditions, unsafe procedures and unsafe work processes. In addition, every employee is responsible to help identify and implement approved solutions to prevent future incidents.

### **Near Miss Reports and Solutions:**

The following steps will help you complete the Near Miss Form:

- Gather the facts about the process, machine, location, etc.
- Identify the cause(s) of the incident including conditions, work processes, etc.
- Take immediate action, if possible, to correct the situation.
- Document action(s) taken and other suggestions on the Near Miss Form and return form to your manager / supervisor as soon as possible.
- Help develop open action items with estimated completion dates and follow-up to make improvements are implemented.
